Yager, R. H., 158.
York, Charles J., 117.
Young, Lawrence E., 207.
Yulie, Charles L., 207.

Index of Subjects

A

Ablation and Progesterone Replacement Therapy During Pergnancy in the Cow, Studies on Corpus Luteum, 446.

Acetylaminonitrothiazole on Egg Production Fertility, and Hatchability in Turkey Hens, Chemotherapy of Enterohepatitis of Turkeys II. The Effect of 2-Amino-5-Nitrothiazole and 2-, 386.

Acetylaminonitrothiazol in Prevention and Treatment, Chemotherapy of Enterohepatitis of Turkeys. III. Comparative of 2-Amino-5-Nitrothiazol and 2-, 572.

Acid, A Study of the Pathology of the Intestine and Other Organs of Weanling Pigs When Fed a Ration of Natural Feedstuffs Low in Pantothenic, 298.

Acid-Fast Allergens on Sensitized Goats, The Evaluation of, 545.

Adrenal Dysfunction in Ketosis of Dairy Cattle, Urinary Glucocorticoids as an Indication of, 129.

Age, Lactation, Pregnancy, and Altitude, Normal Variances in Horse Blood Due to Breed, 514.

Aging on the Potency of Mammalian Intradermal Tuberculins, The Influence of, 62.

Alkaline Phosphatase Activity, Calcium, and Magnesium in Blood Serum of Horses, Blood Chemistry of Equidae—Some Variations in Inorganic Phosphorus, 330.

Allergens on Sensitized Goats, The Evaluation of Acid-Fast, 545.

Altitude, Normal Variances in Horse Blood Due to Breed, Age, Lactation, Pregnancy, and, 514.

Amino-5-Nitrothiazole in Prevention and Treatment, Chemotherapy of Enterohepatitis of Turkeys. I. The Value of 2-, 383.

Amino-5-Nitrothiazole and 2-Acetylaminonitrothiazole on Egg Production Fertility, and Hatchability in Turkey Hens, Chemotherapy of Enterohepatitis of Turkeys II. The Effect of 2-, 386.

Amino-5-Nitrothiazol and 2-Acetylaminonitrothiazol in Prevention and Treatment, Chemotherapy of Enterohepatitis of Turkeys. III. Comparative Value of 2-, 572.

Anaplasmosis Complement-Fixation Tests, Preparation of an Improved Antigen for, 149.

Anatomy of the Bovine Liver, III. Comparative Arrangement of the Blood Vessels of the Livers of the Bovine and Equine Fetuses, Studies on the Subgross, 201.

Anemia, A Further Note on the Action of Phenol on the Virus of Equine Infectious, 195.

Anemia, Plasma Protein Changes in Equine Infectious, 83.

Antibiotic Products in Feed on Experimental Ulcerative Enteritis in Quail, The Effects of Several, 99.

Antibiotics in Diluted Bull Semen on Vibrio Fetus, Effect of, 145.

Antigen for Anaplasmosis Complement-Fixation Tests, Preparation of an Improved, 149.

Arizona Waters of High Fluoride Content, The Effect upon Cattle of, 50.

Arsenamide in the Treatment in Canine Filariasis, 220.

Arthritis in Swine Following Multiple Injections with Erysipelothrix Rhusiopathiae, Experimental, 188.

Ascarids and Bots in Horses, Critical Tests with Toluene for, 198.

(Aujeszky Strain) After Propagation in the Rabbit, Morphological Observations by Electron Microscopy of Pseudorabies Virus, 577.

Aureomycin on Diarrhea and on the Vitamin B_{12} And Methionine Needs of the Pig, Effect of, 186.

Avian Encephalomyelitis—Prevalence, Pathogenicity of the Virus, and Breed Susceptibility, 260.

Avian Leukosis, Studies in. VI. Serial Passage of a Highly Maglignant Strain of Visceral Lymphomatosis in Young Chickens, 105.

Avian Neoplasia. I. A Quantitative Evaluation of Neutralizing Antibodies for the Rous Sarcoma Virus in Avian Serums, Studies in, 388.

B

Bacteria Commonly Encountered in Clinical Bacteriology, A Key For Tentative Recognition of, 430.

Bacteriology, A Key for Tentative Recognition of Bacteria Commonly Encountered in Clinical, 430.

Beef Livers, Effects of Low Temperature on the Eggs of the Common Liver Fluke (Fasciola Hepatica) in, 345.

Benzethacil, Canine Penicillin Blood Levels Obtained with Parenteral, 555.

(Blackhead) in Turkeys, Studies on the Use of 2-Amino-5-Nitrothiazole in the Control of Enterohepatitis, 108.

Blood by Fluoride Precipitation, Fractionation of the Calcium in Bovine, 31.

Blood Chemistry of Equidae—Some Variations in Inorganic Phosphorus, Alkaline Phosphatase Activity, Calcium, and Magnesium in Blood Serum of Horses, 330.

Blood Due to Breed, Age, Lactation, Pregnancy, and Altitude, Normal Variances in Horse, 514.

Blood Groups in Dogs—Their Significance to the Veterinarian, 207.

Blood Levels Obtained with Parenteral Benzethacil, Canine Penicillin, 555.

Blood Level Studies in Dogs Following the Administration of Chloromycetin, 204.

Blood Picture of Healthy Southdown and Hampshire Ewes, On the, 74.

Blood Sedimentation Rate in the Horse, The, 77.

Blood Serum of Horses, Blood Chemistry of Equidae—Some Variations in Inorganic Phosphorus, Alkaline Phosphatase Activity, Calcium, and Magnesium in, 330.

Blood, The Effect of Added Manganese in Feed on Various Mineral Components of Cattle, 348.

Blood Through the Canine Kidney, Circulation of, 236.

Blood Values of the Southwestern Burro (Equus Asinus Asinus), Some, 509.

Blood Vessels of the Livers of the Bovine and Equine Fetuses, Studies on the Subgross Anatomy of the Bovine Liver, III. Comparative Arrangement of the, 201.

Bots in Horses, Critical Tests with Toluene for Ascarids and, 198.

Bovine Blood by Fluoride Precipitation, Fractionation of the Calcium in, 31.

Bovine Brucellosis, Studies on the Experimental Treatment of, 152.

Bovine Keratitis, A Study of Moraxella Bovis and Its Relation to, 132.

Bovine Liver, III. Comparative Arrangement of the Blood Vessels of the Livers of the Bovine and Equine Fetuses, Studies on the Subgross Anatomy of the, 201.

Bovine Mastitis Caused by Cryptococcus Neoformans, The Pathology of, 469.

Bovine Mastitis, Reservoirs of Infection of Micrococcus Pyogenes in, 500.

Bovine Serum Solids with Vitamin K Added as an Oral Prophylactic for Calf Scours. I. Use of Healthy Newborn Calves, A Study of Normal, 5.

Bovine Tongue, Cultivation of the Foot-and-Mouth Disease Virus in Explanted Epithelium of the. IV. Tissue and Medium Variations, 21.
Bovine Tuberculins, Comparison of the Potencies and Specificities of Human and, 338.
Breed, Age, Lactation, Pregnancy, and Altitude, Normal Variances in Horse Blood Due to, 514.
Bronchitis Virus, Electron Microscope Studies of Four Strains of Infectious, 417.
Brucella Abortus Strains, Comparative Immunity Experiments in Cattle Using Live Vaccines Prepared from Agglutinogenic and Nonagglutinogenic, 476.
Brucella Abortus Strain 19. III. The Response of Vaccinated and Revaccinated Cattle to Conjunctival Exposure with a Virulent Strain of Brucella Abortus During the Third Gestation Period, Studies on Repeated Vaccination of Cattle with, 351.
Brucella Following Sexual Stimulation and Brucella Exposure During Early Calfhood, Response of Cattle to, 437.
Brucella Melitensis Infection, The Pathogenesis of Artificial, Studies in Swine Brucellosis I, 67.
Brucella Suis Following Vaccination with Brucella Abortus Strain 19, Susceptibility of Cattle to, 24.
Brucella Suis, Reversal of Thionine Inhibition by Various Substrates on, 161.
Brucella, The Comparative Effect of Related Chemical Groups on the Growth of Three Species of, 10.
Brucellosis Following Oral Exposure, Pathological Aspects of Canine, 366.
Brucellosis, Studies in Swine. I. The Pathogenesis of Artificial Brucella Melitensis Infection, 67.
Brucellosis, Studies on the Experimental Treatment of Bovine, 152.
Bull Semen on Vibrio Fetus, Effect of Antibiotics in Diluted, 145.
Bulls, Relative Efficacy of Various Methods of Obtaining Preputial Samples for Diagnosis of Trichomoniasis in, 452.
Burro (Equus Asinus Asinus), Some Blood Values of the Southwestern, 509.

C

Calcium, and Magnesium in Blood Serum of Horses, Blood Chemistry of Equidae—Some Variations in Inorganic Phosphorus, Alkaline Phosphatase Activity, 330.
Calcium in Bovine Blood by Fluoride Precipitation, Fractionation of, 31.
Calfhood, Response of Cattle to Brucella Following Sexual Stimulation and Brucella Exposure During Early, 437.
Calf Scours. I. Use of Healthy Newborn Calves, A Study of Normal Bovine Serum Solids with Vitamin K Added as an Oral Prophylactic for, 5.
Canine Brucellosis Following Oral Exposure, Pathological Aspects of, 366.
Canine Filariasis, Arsenamide in the Treatment of, 220.
Canine Histoplasmosis. A Study of Twenty-One Cases, Pathology of Spontaneous, 214.
Canine Kidney, Circulation of Blood Through the, 236.
Canine Penicillin Blood Levels Obtained with Parenteral Benzethacil, 555.
Cats, Experimental Q Fever in, 91.
Cattle, A Complement-Fixation Test for Leptospirosis in, 117.
Cattle Blood, The Effect of Added Manganese in Feed on Various Mineral Components of, 348.
Cattle. II. Comparative Tests of the Protective Value of Huddleson's Mucoid and Strain 19 Vaccines in, 441.
Cattle Damage, A Critical Study of the Literature on Fluoride Toxicology with Respect to, 38.
Cattle of Arizona Waters of High Fluoride Content, The Effect upon, 50.
Cattle, The Role of the Milking Process in the Intraherd Transmission of Q Fever in Dairy, 458.
Cattle to Brucella Following Sexual Stimulation and Brucella Exposure During Early Calfhood, Response of, 437.
Cattle to Brucella Suis Following Vaccination with Brucella Abortus Strain 19, Susceptibility of, 24.
Cattle, Urinary Glucocorticoids as an Indication of Adrenal Dysfunction in Ketosis of Dairy, 129.
Cattle Using Live Vaccines Prepared from Agglutinogenic and Nonagglutinogenic Brucella Abortus Strains, Comparative Immunity Experiments in, 476.
Cattle with Brucella Abortus Strain 19. III. The Response of Vaccinated and Revaccinated Cattle to Conjunctival Exposure with a Virulent Strain of Brucella Abortus During the Third Gestation Period, Studies on Repeated Vaccination of, 351.
Cephalin-Cholesterol Flocculation Test for Horse Serums, A Modified, 191.
Chemical Observations on the Newborn Pig with Special Reference to Hypoglycemia, Studies on Baby Pig Mortality. VIII., 164.
Chemical Groups on the Growth of Three Species of Brucella, The Comparative Effect of Related, 10.
Chemistry of Equidae—Some Variations in Inorganic Phosphorus, Alkaline Phosphatase Activity, Calcium, and Magnesium in Blood Serum of Horses, Blood, 330.
Chemotherapy of Enterohepatitis of Turkeys. I. The Value of 2-Amino-5-Nitrothiazole in Prevention and Treatment, 383.
Chemotherapy of Enterohepatitis of Turkeys, II. The Effect of 2-Amino-5-Nitrothiazole and 2-Acetylaminonitrothiazole on Egg Production Fertility, and Hatchability in Turkey Hens, 386.
Chemotherapy of Enterohepatitis of Turkeys. III. Comparative Value of 2-Amino-5-Nitrothiazol and 2-Acetylaminonitrothiazol in Prevention and Treatment, 572.
Chicken Embryo Inoculation Procedures for Virus Cultivation, 267.
Chicken Embryos, Morphogenesis of the Thymus of, 395.
Chicken Eye, The Propagation of Lymphoid Tumors in the Anterior Chamber of the, 246.
Chickens, Chronic Respiratory Disease of, 252.
Chickens, Serial Passage of a Highly Malignant Strain of Visceral Lymphomatosis in Young. VI. Studies in Avian Leukosis, 105.
Chicks, The Influence of Litter on the Control of Salmonella Infections in, 562.
Chicks. I. The Transfer of Hemagglutinin Inhibitors from the Maternal Yolk to the Chick, Some Aspects of Congenital Passive Immunity to Newcastle Disease in, 373.
Chicks. II. The Relationship of Maternal Hemagglutination-Inhibition Titers in Baby Chicks to the Actual Immunity, Some Aspects of Congenital Passive Immunity to Newcastle Disease in, 379.
Chloromycetin, Blood Level Studies in Dogs Following the Administration of, 204.
Cholera, Further Observations on the Neuropathological Diagnosis of Hog, 309.
Cholera Losses, A Study of Postvaccinal Hog, 526.
Cholera, The Value of Inclusion Bodies in the Diagnosis of Hog, 304.
Chronic Respiratory Disease of Chickens, 252.
Circulation of Blood Through the Canine Kidney, 236.
Complement-Fixation Test for Leptospirosis in Cattle, A, 117.
Complement-Fixation Tests, Preparation of an Improved Antigen for Anaplasmosis, 149.
Congenital Passive Immunity to Newcastle Disease in Chicks. I. The Transfer of Hemagglutinin Inhibitors from the Maternal Yolk to the Chick, Some Aspects of, 373.

Congenital Passive Immunity to Newcastle Disease in Chicks. II. The Relationship of Maternal Hemagglutination-Inhibition titers in Baby Chicks to their Actual Immunity, Some Aspects of, 379.
Conjunctival Exposure with a Virulent Strain of Brucella Abortus During the Third Gestation Period, Studies on Repeated Vaccination of Cattle with Brucella Abortus Strain 19. III. The Response of Vaccinated and Revaccinated Cattle to, 351.
Corpus Luteum Ablation and Progesterone Replacement Therapy During Pregnancy in the Cow, Studies on, 446.
Cotton Rat (Sigmodon Hispidus), Electron Micrographs of Newcastle Disease Virus Propagated in the, 575.
Cow, Studies on Corpus Luteum Ablation and Progesterone Replacement Therapy During Pregnancy in the, 446.
Cryptococcus Neoformans in a Large Dairy Herd, A Severe Mastitis Problem Associated with, 121.
Cryptococcus Neoformans, The Pathology of Bovine Mastitis Caused by, 469.

D

Dairy Cattle, The Role of the Milking Process in the Intraherd Transmission of Q Fever Among, 458.
Dairy Herd, A Severe Mastitis Problem Associated with Cryptococcus Neoformans in a Large, 121.
Diamino Diphenyl Sulfone, and Other Agents on Mycobacterium Paratuberculosis, The Effect of Viomycin, 4:4′, 466.
Diarrhea and on the Vitamin B_{12} and Methionine Needs of the Pig, Effect of Aureomycin on, 186.
Dictyocaulus Filaria, Experimental Infection of Sheep and Goats with the Nematode Lungworm, 531.
Dihydrostreptomycin, Employed Singly or in Combination, on Staphylococcus Pyogenes Mammary Infections, Effect of Massive Doses of Penicillin and, 26.
Diphenyl Sulfone, and Other Agents on Mycobacterium Paratuberculosis, The Effect of Viomycin, 4:4′ Diamino, 466.
Distilled Water, Physiological Saline, and Glucose Solutions on Fasting Newborn Pigs, Studies on Baby Pig Mortality. XII. A Note on the Influence of Ingestion of, 327.
Dog as Determined by Roentgenogram, The Time of Closure of the Lower Femoral Epiphyses and Upper Tibial Epiphyses in the, 90.
Dog, Dramamine and the Vestibular Apparatus in the, 549.
Dogs Following the Administration of Chloromycetin, Blood Level Studies in, 204.
Dogs—Their Significance to the Veterinarian, Blood Groups in, 207.
Dramamine and the Vestibular Apparatus in the Dog, 549.

E

Egg Production Fertility, and Hatchability in Turkey Hens, Chemotherapy of Enterohepatitis of Turkeys II. The Effect of 2-Amino-5-Nitrothiazole and 2-Acetylaminonitrothiazole on, 386.
Electron Micrographs of Newcastle Disease Virus Propagated in the Cotton Rat (Sigmodon Hispidus), 575.
Electron Microscope Studies of Four Strains of Infectious Bronchitis Virus, 417.
Electron Microscopy of Pseudorabies Virus (Aujeszky Strain) After Propagation in the Rabbit, Morphological Observations by, 577.
Electrophoresis in Filter Paper, An Investigation of the Foot-and-Mouth Disease Virus by the Use of, 17.
Embryo Inoculation Procedures for Virus Cultivation, Chicken, 267.
Embryos, Morphogenesis of the Thymus of Chicken, 395.
Encephalitic Strain of Hog Cholera Virus, A Study of an, 277.
Encephalomyelitis—Prevalence, Pathogenicity of the Virus, and Breed Susceptibility, Avian, 260.
English Sparrows to Newcastle Disease Virus, Some Effects of Oral Exposure of, 566.
Enteritis in Bobwhite Quail, Streptomycin Studies in Ulcerative. II. Concentrations of Streptomycin in Drinking Water Suppressing the Experimental Disease, 102.
Enteritis in Quail, The Effects of Several Antibiotic Products in Feed on Experimental Ulcerative, 99.
Enterohepatitis (Blackhead) in Turkeys, Studies on the Use of 2-Amino-5-Nitrothiazole in the Control of, 108.
Enterohepatitis of Turkeys. I. The Value of 2-Amino-5-Nitrothiazole in Prevention and Treatment, Chemotherapy of, 383.
Enterohepatitis of Turkeys, II. The Effect of 2-Amino-5-Nitrothiazole and 2-Acetylaminonitrothiazole on Egg Production, Fertility, and Hatchability in Turkey Hens, Chemotherapy of, 386.
Enterohepatitis of Turkeys, Chemotherapy of. III. Comparative Value of 2-Amino-5-Nitrothiazol and 2-Acetylaminonitrothiazol in Prevention and Treatment, 572.
Eperythrozoonosis in Swine—Filtration Studies, 290.
Epiphyses and Upper Tibial Epiphyses in the Dog as Determined by Roentgenogram, The Time of Closure of the Lower Femoral, 90.
Equidae—Some Variations in Inorganic Phosphorus, Alkaline Phosphatase Activity, Calcium, and Magnesium in Blood Serum of Horses, Blood Chemistry of, 330.
Equine Fetuses, Studies on the Subgross Anatomy of the Bovine Liver, III. Comparative Arrangement of the Blood Vessels of the Livers of the Bovine and, 201.
Equine Infectious Anemia, A Further Note on the Action of Phenol on the Virus of, 195.
Equine Infectious Anemia, Plasma Protein Changes in, 83.
(Equus Asinus Asinus), Some Blood Values of the Southwestern Burro, 509.
Erysipelothrix Rhusiopathiae, Experimental Arthritis in Swine Following Multiple Injections with, 188.
Ewes, On the Blood Picture of Healthy Southdown and Hampshire, 74.
Experimental Infection of Sheep and Goats with the Nematode Lungworm, Dictyocaulus Filaria, 531.
Eye, The Propagation of Lymphoid Tumors in the Anterior Chamber of the Chicken, 246.

F

Feline Pneumonitis. I. Immunization Studies in Kittens, 557.
Fetus, Effect of Antibiotics in Diluted Bull Semen on Vibrio, 145.
Fetuses, Studies on the Subgross Anatomy of the Bovine Liver, III. Comparative Arrangement of the Blood Vessels of the Livers of the Bovine and Equine, 201.
Filariasis, Arsenamide in the Treatment of Canine, 220.
Filtration Studies, Eperythrozoonosis in Swine—, 290.
Flocculation Test for Horse Serums, A Modified Cephalin-Cholesterol, 191.

Fluoride Content, The Effect upon Cattle of Arizona Waters of High, 50.
Fluoride Precipitation, Fractionation of the Calcium in Bovine Blood by, 31.
Fluoride Toxicology with Respect to Cattle Damage, A Critical Study of the Literature on, 38.
Foals, Observations on the Clinical Features and Pathology of Hemolytic Icterus of Newborn, 504.
Foot-and-Mouth Disease Virus by the Use of Electrophoresis in Filter Paper, An Investigation of the, 17.
Foot-and-Mouth Disease Virus in Explanted Epithelium of the Bovine Tongue, Cultivation of the. IV. Tissue and Medium Variations, 21.
Foot-and-Mouth Disease Virus, The Determination of the Sedimentation Constant of a Homogeneous Component Having the Characteristics of the, 13.
Fractionation of the Calcium in Bovine Blood by Fluoride Precipitation, 31.

G

Gastroenteritis in Swine, Some Properties of the Causative Agent of Transmissible, 318.
Goats, A Semen Study of, 537.
Goats, The Evaluation of Acid-Fast Allergens on Sensitized, 545.
Goats with the Nematode Lungworm, Dictyocaulus Filaria, Experimental Infection of Sheep and, 531.
Glucocorticoids as an Indication of Adrenal Dysfunction in Ketosis of Dairy Cattle, Urinary, 129.
Glucose Solutions on Fasting Newborn Pigs, Studies on Baby Pig Mortality. XII. A Note on the Influence of Ingestion of Distilled Water, Physiological Saline, and, 327.

H

Hamster to Rectal Instillation of Modified Newcastle Disease Virus, Response of the Syrian, 110.
Hemagglutination-Inhibtion Titers in Baby Chicks to their Actual Immunity, Some Aspects of Congenital Passive Immunity to Newcastle Disease in Chicks. II. The Relationship of Maternal, 379.
Hemagglutinin Inhibitors from the Maternal Yolk to the Chick, Some Aspects of Congenital Passive Immunity to Newcastle Disease in Chicks. I. The Transfer of, 373.
Hemolytic Icterus of Newborn Foals, Observations on the Clinical Features and Pathology of, 504.
Histochemical Methods in the Study of Telangiectasis, 359.
